SOFT COMFORTABLE FIT
Mellows earplugs are made of extra-soft, extra-light foam. Their tapered shape fits easily in the ear canal, and seals gently and snugly without uncomfortable pressure. They're so comfortable you'll forget you're wearing earplugs.

ALL-DAY WEAR
The low pressure, smaller design of Mellows is perfect for extended periods of wear. Mellows provide maximum foam comfort with the appropriate protection for mid to high level noise areas.

NRR 30. INDEPENDENTLY TESTED NRR.
Mellows are independently tested to ANSI S3.19-1974. So you know you're getting excellent protection against industrial noise.

HIGH VISIBILITY COLOR
A very bright orange plug color makes compliance checks easy and quick.

AVAILABLE IN PLUGSTATION DISPENSER
Moldex offers the convenience, increased compliance and cost savings of our popular earplug dispenser, the PlugStation, with Mellows foam earplugs, Uncorded. With the PlugStation,® you can afford to put earplugs in all the places they're needed. PlugStation's convenience, ease of use, and high visibility lead to higher compliance and by giving quick acces to workers It also saves worktime.

- Compliance — High visibility to increase awareness for your hearing conservation program
- Convenience — Hang a PlugStation anywhere plugs are needed
- Cost Savings — Workers take one pair at a time so there are no wasteful grabbing of multiple pairs

ATTENUATION DATA

Tested According to ANSI Specs S3.19-1974 by Michael & Assoc., State College, PA.

Frequency (Hz)	125	250	500	1000	2000	3150	4000	6300	8000		
Mean Attenuation (dB)	26.2	32.3	41.0	37.8	38.3	47.3	47.7	48.0	45.7	**NRR 30**	**CSA AL**
Standard Deviation (dB)	3.4	4.0	4.4	3.7	2.5	4.6	3.4	3.5	4.3		

WARNING TO USER

1. Use these laboratory derived attenuation data for comparison purposes only. The amount of protection afforded in field use often is significantly lower depending upon how the protectors are fitted and worn.
2. Failure to obtain a proper fit will reduce effectiveness of hearing protectors and could result in hearing loss or injury.
3. Over protection can be dangerous. The wearer must be able to hear warning signals.
4. Wearers with hearing loss should exercise extreme caution.
5. It is the employer's responsibility to ensure that the type of hearing protector and its rating is appropriate for the user in their particular workplace.
6. Failure to follow all instructions and warnings could result in increased risk of hearing loss, serious injury or death.
7. Use caution when working around machinery or any other equipment to ensure neck cord does not become caught or entangled.
8. Mellows foam earplugs must only be used as part of a hearing conservation program that complies with applicable local safety and health regulations.

MOLDEX TECHNICAL ASSISTANCE

Moldex provides all of the technical assistance required to set up a hearing protection program. For more information call +1 (800) 421-0668 or +1 (310) 837-6500 ext. 512/550 or E-mail: tech@moldex.com or visit www.moldex.com.

Keep earplugs away from infants and small children as they may get caught in the windpipe and create a choking hazard.
